Executive Summary

AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

1. Introduction

The Town of Marana 2024-2025 Action Plan details the available resources and activities that will utilize Community Development Block Grant (CDBG) funds received from the U.S. Department of Housing and Urban Development (HUD).

Marana's Annual Action Plan will outline the objectives, goals, and projected outcomes to be carried out utilizing CDBG funds during the second year of the Five-Year Consolidated Plan. Priorities presented in the second year Annual Action Plan were developed during the public process of creating the Five-Year Consolidated Plan and represent any input from the residents during the development of this year's plan.

Marana's estimated allocation is \$200,000 in CDBG funds. All funds must be used to assist Marana's low to moderate income residents, and meet one or more of the following HUD objectives:

- Benefit low and moderate income (LMI) persons,
- Aid in the prevention or elimination of slums and/or blight; or
- Meet a need having a particular urgency (referred to as urgent need)

2. Summarize the objectives and outcomes identified in the Plan

The Town of Marana will allocate funding to meet the goals and objectives outlined in the Consolidated Plan. In Program Year 2024, projects will invest entitlement funds to continue supporting the following:

1. Housing Rehabilitation
2. Homeless Prevention
3. Planning & Administration

3. Evaluation of past performance

Marana is a new entitlement community, currently in its first year of entitlement. The Town previously received CDBG funds through Pima County. Much of the first year's focus was getting the program set up and established.

4. Summary of Citizen Participation Process and consultation process

Citizen participation plays an integral role throughout the planning and development of the Annual Action Plan. Participation of its Citizens in the process is desired to ensure the Town is utilizing the resources towards projects that its residents have identified as a high priority. Additionally, effective citizen participation helps to better inform the public, identify hidden community needs, bring forward citizen ideas, and generate involvement and commitment to proposed solutions.

The Town of Marana held two Community Meetings prior to the development of the draft Annual Action Plan. One was held virtually at 11:30am on February 29, 2024 and the second was held in person at 5:30pm on the same day. The intent was to present the public with an overview of the programs funded during PY 2023 and to allow the public an opportunity to provide their insights on community needs and potential projects.

There is a 30-day comment period from April 2, 2024 to May 3, 2024. During that time, the Town will conduct two in-person public hearings; one on April 16, 2024 at 5:30pm and the other on April 2, 2024 at 11:30am. The public comment period and public hearings were announced through an advertisement in The Daily Territorial, posted on the Town's website and social media, and posted in public locations such as Town Hall. The public hearing notice included the meeting location, date, time, key staff contacts, topics to be considered, and the beginning and ending dates of the public comment period. The notice also included information for citizens requesting reasonable accommodations for a disability. In addition to commenting at the public hearing, citizens were invited to submit written comments to the Community and Neighborhood Services Department by mail, phone or email.

Public comments received during the public comment period will be incorporated into the final Annual Action Plan submitted to the U.S. Department of Housing and Urban Development. Final approval by the Town of Marana Council will be held on [TBD].

5. Summary of public comments

No public comments have been received prior to the release of the draft Annual Action Plan. A summary of public comments received will be included and attached to the final Annual Action Plan submitted to the U.S. Department of Housing and Urban Development.

6. Summary of comments or views not accepted and the reasons for not accepting them

N/A

7. Summary

The Town of Marana is committed to allocating funds that serve the needs of low-income residents. Marana will continue to utilize its CDBG appropriations over the next year to address the goals and objectives set forth in the plan. These goals and objectives include, but are not limited to, affordable housing by way of housing rehabilitation and homeless prevention. A majority of CDBG funds will continue to be targeted in the low-income area and neighborhoods of the Town of Marana.

AP-10 Consultation – 91.100, 91.200(b), 91.215(I)

1. Introduction

During the development of the 2023-2027 Consolidated Plan, The Town of Marana consulted with representatives from multiple community service providers, town departments, advocacy groups, and organizations involved in the development of affordable housing, the creation of job opportunities for low- and moderate-income residents, and/or the provision of services to children, elderly persons, persons with disabilities, persons with mental health and/or substance use disorder, and homeless persons. To facilitate this consultation, the Town solicited feedback through the following methods:

- Townwide community survey
- Ten (10) Focus Group discussion opportunities with service providers and community residents;
- 30 stakeholder interviews;
- Four (4) Public Hearings; and
- Receipt of written comments.

To gather the most in-depth information, the Town consulted with a variety of community service providers, advocacy groups and organizations concerning the housing, community and economic development needs of the community. Each of the groups or organizations consulted is listed below. The input received from these consultation partners helped establish and inform the objectives and goals described in the Strategic Plan.

Provide a concise summary of the jurisdiction’s activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(I))

During the development of the 2023-2027 Consolidated Plan, the Town consulted with several organizations that provide housing, health services and other community-focused programs. Outreach included invitations to community focus group discussions, one-on-one stakeholder interviews, community survey, and public hearings.

The Town recognizes the importance of continued coordination and alignment during the upcoming five-year Consolidated Plan period with organizations and providers. The Town will continue to look towards these organizations to assist in the implementation of projects using CDBG funds. The *Make Marana 2040 General Plan* describes several of the goals and underlying policies related to public and private coordination of health care and other services, including a specific aim that area medical facilities provide convenient access to health care for residents of all ages and needs through partnerships with Sun Shuttle paratransit services and Marana Health Center, which provides health care and behavioral health services throughout the community.

The Town also collaborates formally with other jurisdictions in Pima County, and with the County itself, on broader coordinated efforts aimed at addressing issues related to poverty, housing, and public health. Town of Marana CNS is represented on the Pima County Affordable Housing Commission, which makes recommendations to Pima County's Board of Supervisors to increase the supply of housing across Pima County that is affordable, sustainable, safe, and promotes individual and community prosperity. CNS also participates in the Prosperity Working Group, convened by Pima County and the City of Tucson in 2022 to research and develop a set of evidence-based policy options to guide long-term efforts to strategically address generational poverty, improve opportunity, and create community wealth, while also tactically addressing the immediate needs of those experiencing poverty.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

Pima County's homeless system of care is comprised of a network of public, private, faith-based, for-profit, and nonprofit service providers that utilizes several federal, state and local resources to provide services for persons experiencing homelessness. At an institutional level, Pima County and underlying municipalities like Marana work with the Tucson Pima Collaboration to End Homelessness (TPCH), the region's Continuum of Care (CoC) in the administration and delivery of CoC services. Town of Marana is an active member of TPCH and participated in the 2023 Point in Time Count.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

N/A. Town of Marana does not receive ESG funds.

According to Marana’s Citizen Participation Plan, residents and stakeholders are given multiple opportunities to comment on the plan during the plan development. Two community meetings are scheduled prior to the development of the draft Annual Action Plan to allow the public an opportunity to provide their insights on community needs and potential projects. A 30-day comment period is posted on Marana’s website and two public meetings are scheduled to provide opportunities for public comment. The public meetings are posted on social media and Marana’s website, noticed through public hearing notices at municipal buildings as well as being advertised in a newspaper with local circulation. Notices provide information about alternative formats and accommodations for disabilities and language barriers.

Expected Resources

AP-15 Expected Resources – 91.220(c)(1,2)

Introduction

During Program Year 2024, the Town anticipates the availability of the following resources by funding type, inclusive of HUD fund program income, prior year(s) and local resources: CDBG -\$200,000*. This is an estimated amount and does not represent the actual allocation amount.

Anticipated Resources

Program	Source of Funds	Uses of Funds	Expected Amount Available Year 2				Expected Amount Available Remainder of ConPlan \$	Narrative Description
			Annual Allocation: \$	Program Income: \$	Prior Year Resources: \$	Total: \$		
CDBG	public - federal	Acquisition Admin and Planning Economic Development Housing Public Improvements Public Services	200,000*	0.00	180,000*	380,000*	600,000*	The annual allocation of CDBG funds is subject to Federal appropriations and changes in demographic data used in HUD's formulas for each respective program.

Table 54 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

Depending on the financing structure of a given project, it may be advantageous for the Town to use CDBG funds to leverage appropriate state, local, and private resources, including but not limited to those listed below.

State Resources from the Arizona Department of Housing and Economic Security include:

- Low-income Housing Tax Credit financing for developers of affordable rental housing serving households with income below 60% of the area median income.
- HOME funds for housing development.
- Homelessness prevention funding targeted to preventing eviction and maintaining housing stability.

Local and Private Resources include:

- Outside Agency Program. Funded by the Pima County General Fund, the Outside Agency Program allocates funds to nonprofit agencies that provide overarching services, emergency food and clothing, senior support, services for vulnerable and at-risk children, youth and families, temporary shelter, support services, and homelessness prevention programs.
- Pima County GAP Funding. Pima County allocated \$5 million for the purpose of improving housing affordability across the county in FY2023 and an additional \$5 million in FY2024. The County is proposing to continue to allocate additional gap funding for FY2025.
- Community Services, Employment and Training (CSET) programs. CSET administers workforce investment and other programs to improve the economic and social sustainability of the County. CSET programs develop skilled workers for quality jobs, assist employers to address workforce and recruitment needs, mitigate the impact of layoffs, assist households in financial crisis, and help persons with barriers, such as homelessness and lack of literacy, to transition in the County's economic talent pool.
- MHC Healthcare. MHC Healthcare has 16 health centers and serves over 50,000 patients annually with primary care, dental care, some specialty care, WIC program, and behavioral health. MHC Healthcare has a Sliding Fee Scale (SFS) program for eligible households and takes Medicaid, as well.
- Federal Home Loan Bank resources that support savings for homeownership and provide financing for affordable housing development and preservation.

If appropriate, describe publicly owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

Projects

AP-35 Projects – 91.220(d)

Introduction

To address priority needs identified in the Strategic Plan, the Town of Marana will invest its CDBG in projects that develop preserve affordable housing units, develop, or improve public facilities and infrastructure and provide services to low-and moderate-income residents. In addition to addressing the priority needs in the Strategic Plan, the projects in the 2024 Action Plan will further HUD’s national goals for the CDBG programs to provide decent housing opportunities, maintain a suitable living environment and expand economic opportunities for low- and moderate-income Marana residents.

AP-50 Geographic Distribution – 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

At present, the Town of Marana is not implementing any official HUD designated and non-HUD designated geographic based priority areas such as investment and reinvestment areas, Empower Zones, or Brownfields. Allocations and program activities are funded townwide in accordance with eligibility and program priorities set through sub-recipient department policies.

Geographic Distribution

Target Area	Percentage of Funds
Townwide	100

Table 57 - Geographic Distribution

Rationale for the priorities for allocating investments geographically

The Town’s primary method of allocating CDBG dollars is to assist low- to moderate-income and special needs populations. To the extent that specific geographic areas have greater needs than other areas in the town and/or if service and housing organizations are in certain areas, they will receive a larger proportionate share of the funding.

Discussion

All priority needs, goals, and projects are designed to serve the geographic distribution area.

Affordable Housing

AP-55 Affordable Housing – 91.220(g)

Introduction

The Town of Marana has identified that there is a shortage of affordable housing options within the town. The 2023-2027 Consolidated Plan, along with other housing-related studies and initiatives, promotes the need for affordable housing for a variety of households. During PY 2024, the Town will address the shortage by preserving the current affordable housing units that are currently affordable for low- to moderate income households through the home repair programs and assist households with subsistence payments to prevent utility shutoff and/or eviction and provide security deposit assistance for eligible households. Households assisted through these programs include homeless, non-homeless, and at-risk populations.

The Town of Marana is committed to improving the availability of affordable housing options for all residents, especially low to moderate households, in Marana.

AP-60 Public Housing – 91.220(h)

Introduction

Marana does not have any public housing located within its town limits. However, The City of Tucson administers the Pima County Section 8 program, which does include Marana. The City of Tucson Housing Authority's public housing and other affordable rental housing units are administered by property management offices regionalized throughout the city. The property management team at each office is responsible for residential property management activities associated with its assigned projects including property maintenance and modernization work.

Actions planned during the next year to address the needs to public housing

In 2021, the PHA completed a Physical Needs Assessment and received HUD Technical Assistance to develop an Asset Repositioning Plan. The Asset Repositioning Plan will include strategies on modernization, disposition, and purchasing of units in Tucson.

There is currently no public housing in Marana nor any current plans to build public housing in Marana. However, the Town of Marana will work with the City of Tucson HCD if the PHA is interested in building public housing in Marana in the future as the town continues to grow.

If low-income residents in need of affordable housing are identified in Marana, the Town of Marana will provide information about the Pima County Section 8 Program and how to apply to be on the wait list.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

The PHA continues to expand the efforts of establishing resident councils across all the AMP offices. Resident councils work in collaboration with PHA staff to support public housing operations and resident quality of life. Public housing residents are also represented on the City of Tucson Commission on Equitable Housing and Development which provides guidance and direction to the City of Tucson HCD and elected officials. The PHA encourages public housing residents to participate in homeownership through the Family Self Sufficiency (FSS) Program. The FSS program provides financial literacy, budgeting, skill development, and supportive services to promote homeownership readiness. Participants establish an escrow savings account during participation which can be used for down payment and/or closing costs; and is often supplemented by down payment assistance programs administered by HCD and other homeownership programs.

There are around 12 households in Marana that utilize the Housing Choice Voucher (HCV) program and may participate in the FSS programs. However, participation in the programs are not required.

If the PHA is designated as troubled, describe the manner in which financial assistance will be

provided or other assistance

The City of Tucson and Pima County PHAs are not designated as troubled. Not applicable.

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

The key solution to ending homelessness is the stewarding of persons experiencing homelessness through the transition to permanent housing closely aligned with supportive services that ensure housing stability. Marana does not have any direct services for people experiencing homelessness in Marana. Services are primarily located in nearby Tucson.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The Tucson Pima Collaboration to End Homelessness (TPCH) is a coalition of community and faith-based organizations, government entities, businesses, and individuals committed to the mission of ending homelessness and addressing the issues related to homelessness in Pima County. The CoC currently coordinates outreach activities through partnerships between the City of Tucson, Pima County, behavioral health entities, and local non-profit outreach programs. These efforts have proven effective in reaching out to unsheltered homeless people. Outreach workers are trained to conduct VI-SPDAT screening in the field and use progressive engagement strategies with unsheltered individuals toward the aim of engaging them in shelter, supportive housing, and/or other available housing subsidies.

The TPCH is the organization in Pima County that conducts the annual Point in Time (PIT) Count. The Town of Marana will collaborate with the TPCH and other local community partners to conduct a PIT Count within Marana to better understand the extent of homelessness within the town's jurisdiction. Once the extent of homelessness is better understood, the Town can work on developing strategies to assess and address individual's needs.

Addressing the emergency shelter and transitional housing needs of homeless persons

Marana does not currently offer emergency shelter and/or transitional housing within its town limits. The nearest shelters are located in Tucson. Pima County uses its ESG funds to support emergency and transition housing for people experiencing homelessness within the county. However, Marana Police Department officials provide information of regional resources to individuals they encounter who may be experiencing homelessness. Until the extent of homelessness is understood within Marana, Marana cannot address the emergency shelter and transition housing needs of homeless persons within its

jurisdiction.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The CoC is the lead organization in Pima County that addresses the needs of homeless persons and helps them make the transition to permanent housing.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

An individual or family is considered to be at-risk of becoming homeless if it experiences extreme difficulty maintaining housing and has no reasonable alternatives for obtaining subsequent housing. Homelessness often results from a complex set of circumstances that require people to choose between food, shelter, and other basic needs. Examples of common circumstances that can cause homelessness include eviction, loss of income, insufficient income, disability, increase in the cost of housing, discharge from an institution, irreparable damage, or deterioration to housing, and fleeing from family violence.

Individuals and families are able to access homelessness prevention resources across a continuum based on the immediacy of their risk, current housing situation, and family resources in Pima County. The type of services varies by funding source ranging from rent/utility assistance only to a broad range of prevention assistance (transportation, vehicle repair, daycare, etc.) designed to help people remain stably housed. People being discharged from a publicly funded institution of care also have access to these resources along with specialized coordination of services through nonprofit agencies that address the risk of homelessness among the re-entry population. Additionally, families are able to receive assistance from their child(ren)'s school through McKinney-Vento funds providing transportation, school supplies, free breakfast and lunch, case management/advocacy, and other services.

Pima County's Housing First pilot program is a collaborative effort of the Pima County and City of Tucson Criminal Justice systems, the City of Tucson Housing and Community Development Department and Old Pueblo Community Services. The program is designed to coordinate housing and services for people that cycle between shelters, hospitals, jails, treatment programs, and the streets and may be overlooked by traditional approaches. The program accepts referrals from the collaborating organizations and provides employment services, parenting/coaching life skills, health and behavioral health services, substance use

treatment and case management services. The program addresses the underlying systemic problems that result from criminalization of homelessness, arrests and rearrests for minor infractions, and other barriers that limit access to housing and increase the likelihood of recidivism.

The Town of Marana plans on using some of its CDBG dollars to continue its utility assistance program to help LMI households who are at risk of utility shutoff pay their utility bills. This program is the first step in helping prevent homelessness in the community. As the program grows and more money to fund the initiative grows, the Town hopes to expand to rental and/or mortgage payment assistance as well.

Discussion

As a new entitlement community, Marana will work to improve its resources and services for people experiencing homelessness within its town limits. The town currently has limited services to help people currently experiencing homelessness, but there are many services and resources located in Tucson and Pima County that Marana residents can access.

AP-75 Barriers to affordable housing – 91.220(j)

Introduction:

As part of the Consolidated Plan process, an Assessment of Fair Housing was conducted for Marana. The Assessment for Fair Housing (AFH) is a review of barriers that prevent people from choosing their preferred housing, including an assessment of the availability of affordable, accessible housing. MA-40 of the Consolidated Plan also addresses barriers to affordable housing. The primary barriers to affordable housing identified in the AFH and MA-40 are summarized below.

Housing Costs and Cost Burden. With a median household income of \$94,983, Marana is a relatively affluent community compared to other towns in Southern Arizona. Despite a higher median household income, 2,564 households (23.3%) in Marana are considered cost burdened by spending more than 30% of their income on housing costs. Households that are considered cost burdened are more likely to experience housing instability.

Development Costs. The cost of developing affordable housing, inclusive of land, material, and labor costs, has outpaced inflation in recent years. Development fees, often referred to as impact fees, also contribute to the increased cost of development and are gaining more attention as a barrier to construction. However, the Town does have a program, “Marana Affordable Housing Support Program,” for Impact Fee assistance for those earning at or below 80% AMI.

Zoning. The Town has fairly flexible zoning policies that allows for a variety of development options. However, developers tend to develop subdivisions that are similar to what has been successful in prior years. In the past few years, the Town has seen some new development of apartments and rental homes.

Education and Outreach. Educational opportunities regarding fair housing and affordable housing are not widely available in Marana. While the community survey revealed that many residents were familiar with Fair Housing laws, there is likely a large population of residents who don't understand their rights. Thus, fair housing and affordable housing education has been identified as an effective strategy for furthering fair housing and mitigating "Not in my backyard (NIMBYism)." As a new entitlement community, the Town of Marana will develop Fair Housing educational tools available on the town website and within the Community & neighborhood Services Department.

Housing Options for At-Risk Populations. Housing that is accessible for special populations, such as seniors or persons with seen or unseen disabilities, is limited in Marana. Universal design principles in new development and retrofit programs for existing housing would allow for more accessible housing options allowing people to age in place and remain safely in their homes.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

The Town of Marana has identified four Fair Housing Goals to address over the next five years.

1. Increase the number of affordable housing units and preserve existing units
2. Increase community education about affordable housing
3. Increase understanding of housing discrimination and Fair Housing
4. Develop fair housing monitoring and reporting policies in Marana

Discussion:

As part of the 2023-2027 Consolidated Plan, the Town will implement the goals and supported strategies identified in the 2023 Assessment of Fair Housing to continue to affirmatively further fair housing in Marana.

AP-85 Other Actions – 91.220(k)

Introduction:

This section discusses Marana's efforts to address underserved needs, expand and preserve affordable housing, reduce lead-based paint hazards, develop institutional structure for delivering housing and community development activities, and address identified impediments to fair housing choice.

Actions planned to address obstacles to meeting underserved needs

In prior years, the Town of Marana received CDBG funding through Pima County. The Town used the limited funds for Colonia cleanup and home repair program for eligible households. With more funding,

the Town of Marana would like to develop strategies to prevent homelessness in addition to expanding their current home repair and Neighborhood cleanup programs.

Actions planned to foster and maintain affordable housing

The Town of Marana only receives CDBG funding as an entitlement community making affordable housing development a challenge without HOME or other funding. However, the Town of Marana recognizes that affordable housing is one of the biggest needs in the community. The Town can preserve its limited affordable housing stock through its home repair program to help keep LMI households in safe and affordable housing.

Additionally, the Town will continue to review its planning and zoning policies to ensure that affordable housing and housing type diversity is present in the town as it continues to grow. The Town does not currently have any affordable housing development requirements. Town staff will also continue to serve on the Pima County Regional Affordable Housing Commission and the Prosperity Working Group.

Actions planned to reduce lead-based paint hazards

To reduce lead-based paint hazards, the Town of Marana takes the following actions:

- Include lead testing and abatement procedures, if necessary, for residential rehabilitation activities for units built prior to January 1, 1978.
- Educate residents on the health hazards of lead-based paint through the use of brochures as well as encouraging the use of online resources moving forward.
- Encourage screening children for elevated blood-lead levels.
- Disseminate brochures about lead hazards through the Town's residential rehabilitation programs.

HUD requires the dissemination of brochures provided by the U.S. Environmental Protection Agency to all applicants as part of the transmittal of the program application. Units receiving CDBG or HOME assistance that were built prior to January 1, 1978 are addressed in accordance with the Lead-Safe Housing Rule. If testing is required and lead-based paint is present, appropriate abatement procedures are implemented as part of the rehabilitation contract consistent with the requirements of 24 CFR Part 35.

Actions planned to reduce the number of poverty-level families

In an effort to meaningfully address families living in poverty, the goals of the 2023-2027 Consolidated Plan are aligned to support activities that provide access to affordable housing, prevent homelessness, and improve the quality of life for Marana residents.

The Town will, therefore, prioritize funding for activities that will most effectively address those goals over the next five years. This strategy will use CDBG funds to help individuals and families rise out of

poverty through programs that implement accessibility to affordable, safe and stable housing, in order to reach long-term self-sufficiency.

The Program Year 2024 Action Plan will address the most pressing need among low and moderate-income Marana residents, namely, housing safety and quality and housing instability. All other investments, including those directed toward public service programs, and infrastructure improvements are intended to promote self-sufficiency and mobility that can only be the outgrowth of a safe, affordable, stable, and accessible living environment.

Additionally, the Town provide referrals to other resources and services offered by local community service providers and Pima County.

Actions planned to develop institutional structure

The institutional structure identified in the Consolidated Plan (see SP-40) includes a formal and informal network of various agencies of local government, non-profit organizations, and private entities involved in carrying out a range of housing and supportive services programs.

As a new entitlement community, Marana is identifying and building its network of community service providers and others in Marana and Pima County. Town staff participate in the Pima County Regional Affordable Housing Commission and the Prosperity Working Group and will look into other opportunities to serve on relevant committees and working groups that serve the greater needs of Marana residents.

Actions planned to enhance coordination between public and private housing and social service agencies

Preventing and ending homelessness is a HUD priority addressed nationally through coordination of regional strategies carried out locally by government agencies and a wide variety of community-based organizations and faith-based groups. Consistent with this approach, the Town of Marana supports the efforts of Tucson Pima Collaboration to End Homelessness, the region's lead agency for the Continuum of Care (CoC), and its member organizations that address homelessness throughout Pima County. To help prevent homelessness more locally in Marana, the Town will allocate a percentage of CDBG to fund subsistence and security deposit assistance programs. The Town will also welcome opportunities to partner or collaborate with any public or private housing and social service agencies in Marana on programs and projects that enhance the coordination between services.

Discussion:

With limited affordable housing within Marana and a rise in housing costs, the Town continues to dedicate funds to help address the housing and non-housing needs of at-risk and low- to moderate-income households.

Program Specific Requirements

AP-90 Program Specific Requirements – 91.220(I)(1,2,4)

Introduction:

In the implementation of programs and activities under the PY 2024 Action Plan, the Town of Marana will follow all HUD regulations concerning the use of program income, forms of investment, overall low and moderate-income benefit for the CDBG program.

Marana certifies that it will pursue all resources indicated in this Plan and will not willingly or knowingly hinder the implementation of any planned activities. This document is also located on the Department's website.

Grant-specific CDBG requirements are addressed on the following pages.

Community Development Block Grant Program (CDBG) Reference 24 CFR 91.220(I)(1)

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

1. The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed	0
2. The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan.	0
