The Regional Transportation Authority is a state-established political subdivision within Pima County that collects a half-cent excise tax from the RTA's special taxing district. The tax funds the RTA's 20-year regional transportation plan, which voters in the district approved in May 2006 along with the excise tax. To date, the RTA has invested over \$1 billion in the region to deliver transportation projects and services that improve our region's mobility, safety, economic vitality and quality of life. Please visit www.RTAmobility.com for more information. The Ina Road Interchange project was managed by ADOT. The Ina Road Beautification project, not funded by the RTA, was managed by the Town of Marana.
