

## **JOHN F KANE FAIA LEED AP BD+C**

Founding Partner

John Kane is a founding partner and design principal with Architekton. His designs are respected throughout the Southwest as a paradigm for an appropriate and sustainable architecture. He is integral in maintaining Architekton's culture of creating award winning projects that optimize urban desert sites, consistently adhering to a rigorous architectural vocabulary that acknowledges issues of place involving climate, the physical and cultural landscape. He is a leader in the creation of sustainable, collaborative based projects including higher education, community centers, health/recreation centers, transportation centers, civic architecture, community amenities and urban/campus master planning. Originally from southern California, John moved to Arizona 39 years ago where he fell in love with the desert's unique environment and inherent beauty.
