

Re: Town of Marana Pavement Preservation Program – **STREET CLOSURE**

Dear Marana Resident,

This letter is to notify you that your street has been selected for the Town of Marana's Pavement Preservation Program. This program is part of our ongoing commitment to improving and preserving high quality roads. Due to the type of work, you will experience temporary road closures while work is being performed.

Sunland Asphalt has been contracted to perform the street maintenance project in your area. The work involves seal coating of the streets within your subdivision. The seal coating is anticipated to take place between **April 30 to May 01, 2025.**

*****IMPORTANT POLICIES TO NOTE*****

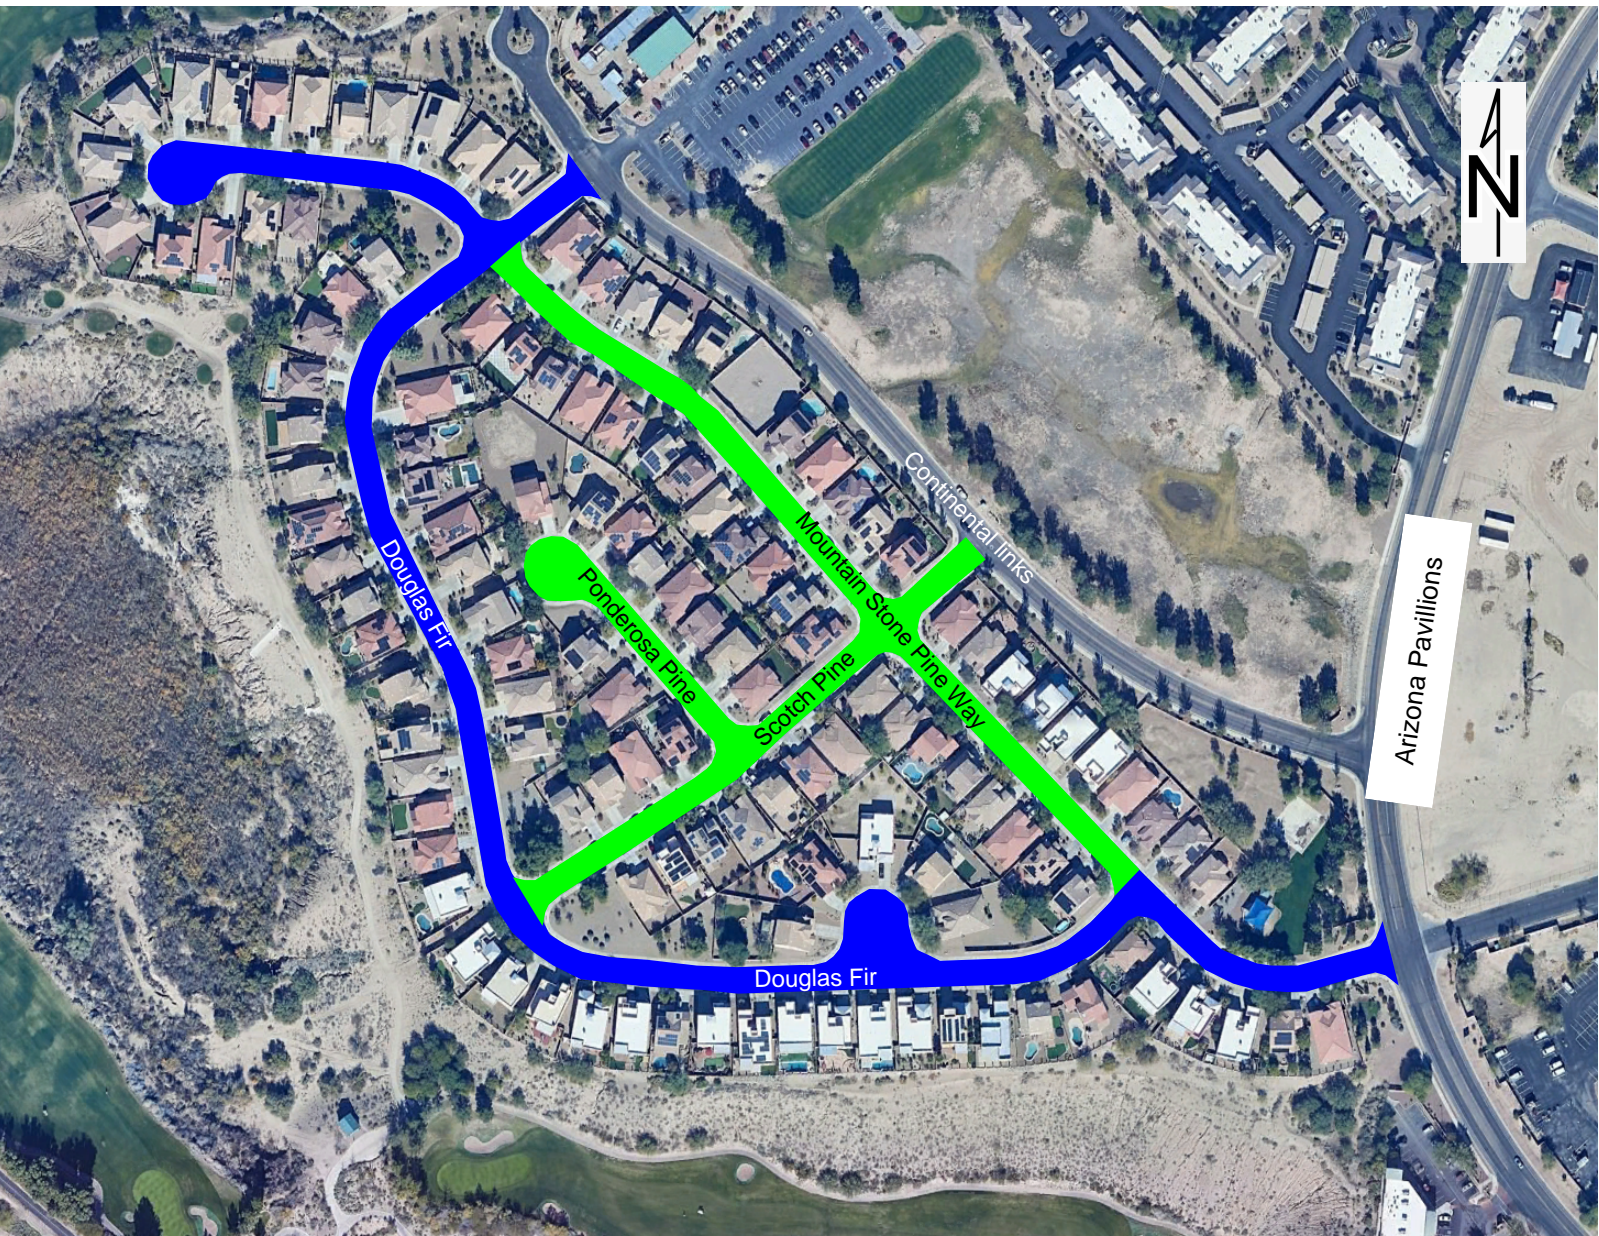

- **Road Closures and Shuttle Service:** Your road will be unavailable for travel on certain days. A shuttle service will be available to get you to and from your residence and vehicle. The shuttle service will run from 7:00 a.m. to 5:00 p.m. If there is a delay and the streets do not open at the estimated time, the shuttle will run until the streets are opened. **To contact the shuttle, please call 520-889-7100.** Please refer to the attached map for details on which days your address will be affected.
- **Parking Restrictions:** The type of treatment being applied to your road requires an 8-hour period of no traffic. **All vehicles must be parked off the street. Please park your vehicle on another street in the neighborhood that is not receiving treatment the same day your street is scheduled (please refer to the map for details). The HOA has been notified, and temporary street parking will be allowed during the repaving project.** If a vehicle is left on the street and its owner cannot be located, it may be towed. Please see map on the back for closure areas and dates.
- **Sprinkler Restrictions:** Sprinklers may not be used one full day before and after your road has been treated. Treatments cannot be applied to wet roadways; delays may occur if moisture is present 24 hours before or after treatment has been applied.
- **Trash and Recycling Pickup:** Trash and recycle containers must be kept off the street. If pickup is scheduled during construction hours, your service will occur at the next scheduled pick-up date. In the case of a life-threatening emergency, public safety vehicles will be allowed to drive on the treated surface.
- **Weather Delays:** Work cannot be performed in inclement weather. If the work is delayed due to weather conditions, you will be notified of any revised schedule or additional closures.
- **Work Hours:** Work is scheduled from 7:00 a.m. to 5:00 p.m. **You will be able to access your road after 5:00 p.m., provided there are no delays, and all barricades have been removed.**

While we understand this may cause some temporary inconvenience, we are committed to completing the work efficiently and with minimal disruption. By working together, we can minimize problems and finish in a timely manner with satisfactory results. **If, for any reason, the scheduled treatment is delayed or rescheduled, you will receive a follow-up notification with updated details.**

For more information or to check the status of the project, please visit our Public Works page at maranaaz.gov/public-works/streets.

We appreciate your patience and cooperation as we work to enhance the quality of our roads.

Sincerely,
Town of Marana Public Works
